Autodesk Labs has released the Bridge Modeler for Civil 3D 2012 I have played around with this in the 2011 version and it seems to be a really good add-on.. I'm not seeing it in the subscription center yet This plug-in did not work on my machine.

The technology preview ceased operation on July 1 Thanks to everyone who provided feedback during the technology preview.. If you download it, make sure that you give feedback on it Here's the Autodesk Labs comment on Bridge Modeler: Bridge Modeler for AutoCAD Civil 3D Added: November 12, 2009 Graduated: June 29, 2012 The Bridge Modeler for AutoCAD Civil 3D 2012 technology preview focused on 2 purpose-built workflow for modeling bridge road, barriers, piers, abutments, and bearings for bridge types and the ability to extract strings along a bridge and create Civil 3D alignments which can be then used to display key bridge elements onto Civil 3D profiles.
