Fires that are unintended or caused by an extreme weather event are a concern. Hot and windy conditions are the culprit, and vegetation that's already stressed and in danger. Planting is crucial to fire resistance. "Plants in contact with the fire and soil moisture will burn," says David Chan. "While it's still green, it's not going to be fire resistant." Two things are especially important for the spring planting season. "Right now is the late winter/early spring planting window. And then after you plant, make sure you go out and regularly water them." Q: iTunes downloads a music file as different size for play count I have multiple apple albums on my iPhone and some of them have about 50% play count. But while I download one of them, it is downloaded as the same exact size for all my albums. I want to use this play count for the download, but I don't want it to effect my actual play count. Is that possible? Is there any way to fix this? Thanks A: You can't. Play count doesn't really matter for any other reason than determining if you have synced the content to the iOS Music app. To affect the Play count in the iOS Music app, you have to go into the App Store app and change the Play count. To change the Play count in the iOS Music app, you have to go to Settings > General > Music > Play Count. Canada will build the northern coast of its Arctic territory that will have its own government, finance minister Bill Morneau said, as Ottawa unveiled an Arctic strategy Tuesday that may trigger Canada's biggest-ever infrastructure project. The strategy will include an all-of-government strategy on the northwest Arctic, the government said, focusing on areas where mineral, oil, and gas deposits are said to exist. Finance Minister Bill Morneau said the government's northern strategy is about protecting Canada
